

# Zackary Xavier Zatizabal

(949) 910-7629 - zzimports@outlook.com - [zzatiz.GitHub.io](https://github.com/Zzatiz)

## professional experience

---

- Diesel & HE Parts | **web developer**  
*September 2023 - January 2024*

<https://dheparts.com/>

Constructed and maintained the company website from ground zero. Diesel & HE now functionally sells 5-figures of tractor and auto parts on the internet.

## projects/creations

---

- CustomFriend | **python**

<https://github.com/Zzatiz/CustomFriend>

Chatbot that can respond to text and audio mutually and intelligently whilst having a postgres backend and stripe payment integration for daily to monthly user subscriptions.

- SnP Predictor | **python**

<https://github.com/Zzatiz/SnP-predictor>

Native windows client app that can use bollinger bonds theorem to predict short-term future profitability of the SnP 500.

- zzcrypter | **C#**

<https://github.com/Zzatiz/zzcrypter>

Application compiler that encrypts the call stack of the selected application with pr0te algorithm to make the executable decrypt its instructions to launch from random access memory therefore bypassing standard anti-virus.
