# Zackary Xavier Zatizabal

## professional experience

---

- Clout9 Social Media Marketing Agency

**Backend developer**

July 2024 - August 2024

[clout9.com](https://clout9.com)

Has been an on-call team member that is in charge of user data allocation and storage.

- Diesel & HE Parts | **front end developer**

September 2023 - January 2024

[dheparts.com](https://dheparts.com)

Constructed and maintained the company website from ground zero. Diesel & HE now functionally sells 5-figures of tractor and auto parts on the internet.

## projects/creations

---

- CustomFriend | **python**

<https://github.com/Zzatiz/CustomFriend>

Chatbot that can respond to text and audio mutually and intelligently whilst having a postgres backend and stripe payment integration for daily to monthly user subscriptions.

- zzcrypter | **C#**

<https://github.com/Zzatiz/zzcrypter>

Application compiler that encrypts the call stack of the selected application with pr0te algorithm to make the executable decrypt its instructions to launch from random access memory therefore bypassing standard anti-virus.

See more on my [github!](https://github.com)
